WHAT WE NEED FROM YOU

PARTNERSHIP CHECKLIST

A rough starting point is all we need — we refine everything together over time.

A INTERIOR PANORAMAS

Immersive interior photos let site visitors step inside your shop before they arrive. Multiple panoramas are welcome — the goal is to cover as much of your store as possible.

HOW TO CAPTURE

Method	Device	How
iPhone Camera (Pano mode)	iPhone	Open Camera → swipe to Pano → sweep slowly across the room. Captures ~240° at high quality — **easiest option**
Panorama 360 Camera	iOS / Android	Free app, exports full 360° equirectangular JPEGs
Google Maps (photosphere)	Android	Maps → Contribute → Camera → Photo Sphere *(feature availability varies by app version)*

TIPS FOR A QUALITY RESULT

- ✓ Stand in the center of each room or area
- ✓ Hold the phone at chest height (portrait for iPhone Pano, any orientation for 360° apps)
- ✓ Sweep slowly and steadily
- ✓ Avoid moving objects — people, fans, open doors
- ✓ Take multiple shots and we will select the best one

B SHOP OWNER PROFILE *(optional)*

Putting a face to the shop strengthens the personal connection that makes local retail special. If you are comfortable sharing:

- A photo and a short bio about you and your shop's story
- Contact details — we may add a direct-messaging option so site visitors can reach you with questions, mirroring the experience of walking in and chatting in person

Sharing contact information is entirely voluntary but encouraged — it builds community trust and keeps the shopping experience personal.

C UPDATE CADENCE

By default we schedule a **quarterly check-in** to refresh your inventory, photos, and shop details. If you prefer a different rhythm — more frequent, less frequent, or updates as-needed — just let us know.
